

# PORTLAND ASKS REDUCED RATES

Movement Started for Lower Power Schedules

Merger of Companies Blocked by Vote of People

Public Service Commission Asked to Investigate

PORTLAND (Or.) April 22. (Exclusive)—Although Portland recently blocked a merger of its two big power companies, the Portland Electric Company and the Northwestern Electric Company, the city is now commencing the reduction in power rates that would have been granted if the merger had been approved. A united movement toward this end has been started and has gained ground already in the calling for an official rate inquiry by the Oregon Public Service Commission.

Portland in its recent special election refused by a vote of almost 3-1 to permit the power companies to merge. The companies had filed with the Public Service Commission a reduced rate scale and it had been ordered effective contingent on the merger being allowed. With the merger plan upset, the power companies have shown no inclination to cut their schedules unless they are forced to do so.

**DEFEAT WAS SURPRISE**

The heavy vote against the merger was something of a surprise, as the proposed reduction in rates was general, affecting both domestic and commercial accounts. Schedules were printed to show that Portland's electric rates would then be among the lowest on the Pacific Coast and it was urged that this

# GAMBLING SCANDAL JOLTS PARIS

Baroness Suspended From Interallied Club Following Row With Egyptian Prince and Duel Threats Over Method of Keeping Bridge Score

PARIS, April 22. (Exclusive)—old aristocracy in France, made up part of a friendly table of bridge where a prince, a member of the Egyptian royal family, also had a hand. The prince suddenly rose in a rage and said:

"Monsieur, I do not like the way you keep score."

Whereupon the Baroness, son-in-law, the elegant Prince Humbert De Pagny-Lucinge, lit on the Egyptian prince and announced in a loud voice what he thought of foreigners in general, and those of dusky complexion in particular. The Prince, however, does not dare show his head. At least a dozen young French blades in the historical sense of the word are ready to challenge him to a duel if he does.

was necessary to the city's industrial expansion. The public seemed suspicious of the merger plan and the adverse vote was considered due to this suspicion rather than to any concrete arguments that had been advanced against the merger.

The present disposition in the city is to force the reductions, regardless of the merger plan. The City Council has adopted a strong resolution asking that the Public Service Commission make its investigation and order reduced schedules. The commission has replied by asking the power companies for an inventory of all their properties and will follow this up with a formal inquiry.

Mayer George L. Baker is urging all of the city clubs to get behind the movement.

**BOOMERANG ARGUMENTS**

The new campaign is based to some extent on arguments advanced by the power companies during the merger discussions. They said that there was much waste in their present methods of doing business. Now, the Council in its resolution is demanding that the wasteful methods be eliminated, merger or no merger, and that the savings be reflected in lower rates.

# ACTIVE FIGURE IN ARMY QUILTS

Maj.-Gen. Hinds Will Leave Service This Week

SAN ANTONIO (Tex.) April 22. (Exclusive)—The final curtain is about to be rung down on one of the most colorful and varied careers of the United States Army.

The farewell speech has been made to his command and Maj.-Gen. Ernest Hinds is making final preparations to leave the service with which he has been an active figure for nearly forty-five years, having been appointed to the United States Military Academy July 1, 1882.

Wednesday he will be retired from the service at his own request. Gen. Hinds will be the first general officer to retire from the service at Fort Sam Houston in many years.

Most of the service during the forty-five years of his military career has been with the artillery forces. He served, however, as an infantry officer during the Philippine Insurrection, a four-year detail with the Adjutant-General's department and a detail with the General Staff Corps. During the latter service he served as a member of the board which drafted the artillery drill regulations of the Army.

He rose to the rank of major-general during the World War. Gen. Hinds was awarded the medals of four governments during the late war.

As chief in command of the American artillery in France, Gen. Hinds has been given high praise for efficiency of the fire along the western front. Unlike heads of almost every department of the Army during the World War, Gen. Hinds was given praise by both the allied forces and the enemy.

About one-third of the honored motor-car drivers in Massachusetts are women.

# SOLOMON'S WORDS USED BY GEORGE

Modern King Quotes King of Old in Opening New Insurance Home

LONDON, April 22. (P)—Bite of wisdom handed down by old King Solomon were quoted by King George in opening the new home of Lloyd's, underwriters' agents, completed at a cost of \$10,000,000.

"It was a very wise man, said the King at the inaugural exercises, 'who, nearly 3000 years ago, said: 'Two are better than one . . . for if they fall the one will lift the other, but woe to him that is alone when he falleth.'"

After referring to the romance of the sea the King continued: "It is the organized system of marine insurance which has transformed overseas trade from a daring and hazardous to the orderly and smoothly working exchange of commodities on which modern civilization depends."

# INTEREST NOW TURNS TO FALL

Next Move in Teapot Case Cause for Conjecture

WASHINGTON, April 22. (P)—Interest in the Teapot Dome oil lease turned today to the action the government will take against Albert B. Fall, whose co-defendant, Harry F. Sinclair, was acquitted yesterday of charges of conspiring with the former Interior Secretary to defraud the government out of the reserve.

That the conspiracy charge against Fall will be dropped seems improbable, as the indictment charged that Sinclair and Fall and "persons unknown to the jury" had conspired to defraud the government.

Owen J. Roberts, special government prosecutor, says he is undecided as to what he will do about the Fall indictment. He does not believe that Fall's health will permit him being placed on trial this summer, but says he might have a statement to make in the coming week.

Sinclair and his family departed yesterday to spend a two-week vacation at his Rancho farm in New Jersey.

The oldest known emerald mines were Cleopatra's mines near the Red Sea in Egypt.

Plan Now for Your

# FUTURE SUCCESS

THIS new California State Life Plan "Insured Savings Contract" is the way to save during your productive years so you will be financially independent during your declining years. It is the plan that insures you when you need it most. It is also an investment which pays you substantial interest on your savings and immediately creates an income to replace your earning power. It may be used for total disability compensation and death benefit for accidental or violent death.

The details of this new plan are very interesting. . . . and for them today.

## Wilkins used PENNZOIL for safe lubrication

FOR the third successive year, Captain Geo. H. Wilkins, the famous Arctic explorer, has used PENNZOIL for his scientific work in the Arctic Circle. On his great flight—over the North Pole from Alaska—to obtain scientific information of world-wide importance, Safe Lubrication was vital. His motor must not fail. Great peril—even death—lurked in a forced landing on the ice beneath.

In choosing PENNZOIL for the lubrication of his Wright-motored Lockheed plane, he said:

"If our scientific project is to succeed, no compromise can be made with quality in the tools with which we must work. In the past PENNZOIL has served us perfectly. Our confidence in it is complete."

Wilkins used the same regular every-day PENNZOIL sold by 10,000 independent dealers in the West. To him, its Supreme Pennsylvania Quality contributed toward the success of a scientific project of great significance. To you, the motorist, PENNZOIL means greater economy, power and satisfaction in every-day driving. Safe Lubrication in any emergency. . . . THE PENNZOIL COMPANY . . . The saying is:

# NOTHING IS SURE BUT DEATH AND TAXES

And when certain merchants make such statements, "I'll give you a \$20.00 suit for \$30.00; a \$60.00 suit for \$40.00," it is self-evident that a HIGH PROFIT "TAX" was "SURELY" assessed. But just as "SURELY" that merchant invite a MERCANTILE "DEATH." For it is an admission that a high profit has been "TAXED." "NOTHING" goes up to come down" at DAN PARKER'S OFFER, 2-for-1 price, enables him to OMIT the profit on the second suit and reduce it on the first, through INCREASED VOLUME. Shop overhead is also reduced through BIG VOLUME, and woollens are bought at "bed-rock" prices because of increased VOLUME. Parker doesn't have to detract from the original quality to make this offer. He just deals a "DEATH" blow to high-profit "TAX." "Seeing is believing"—see what you receive.

# THOUSAND FLOCK TO SEE HEALER

Mexican Village Now Has 30,000 Population

Weather Expected to Augment Crows

Wants Cures Fail to See Fidencio

MONTREY (Mex.) April 22. (Exclusive)—Great crowds of pilgrims flock into the little village of Fidencio, State of Coahuila, to receive treatment of a variety of physical ailments from the hands of the mysterious Fidencio Constantino. The present population of the town is more than 30,000, and with the influx of summer weather when natives may travel with increasing ease, the number of cures will be largely increased.

Fidencio has become the recognized head of a new religious cult which has spread rapidly throughout Mexico. He has received previously accounts to the effect that he had been to the United States and had been to him against his healing practices.

According to his curative arts, Fidencio makes no pretense of knowing divine power. He is a method of healing. To his disciples he merely says a prayer, and the cure is effected. He is said to have a right hand lightly on the head, and as if in response to a suggestion influence what appears to be a powerful force. In other cases, he uses what resembles voodooism, and is in the nature of a hypnotist. A few grains of rice are thrown about the patient, and a large bit of ribbon is worn around his head or some mysterious object.

And night a large iron bottle with a mixture of water and oil is kept boiling over a fire. The odor of the bottle is said to be the cause of the cure. The disciples who call upon him are said to be cured of many ailments. They drink it with much enthusiasm, and the latter part of the day.

**APPARENT CURES**

Fidencio has effected hundreds of cures, and is said to be permanently cured of many ailments. According to the disciples, many persons of education and intelligence who have been cured of their ailments. The disciples of Fidencio are said to be cured of many ailments. # Conservation of Forest Wealth Urged by President in Proclamation

DESPITE the enormous inroads of fire and industry, the United States still has left 130,000,000 acres of saw timber—enough to serve our needs with economy, for a generation or two longer. After that—what? A camper with one match may destroy in a comparatively short time the timber necessary for the annual fuel requirements of a great city, or for the maintenance of a great industry. Of far greater importance to the Southern California, however, is the vital part played by our forests in the conservation of soil and water. In proclaiming this week as American Forest Week, President Coolidge said: "We cannot permanently abuse the land without abusing the forests. Every American citizen should consider himself a guardian of our forests. Photos below on this page give glimpses of the forest wealth of Pacific Coast States and activities of the United States Forest Service in conservation."

## OUR HISTORY IN PICTURES 1010

The Story of Our War With Spain.  
Hobson Sinks the "Merrimac" (part two).

by J. CARROLL MANNING

SHORTLY AFTER 3 O'CLOCK IN THE MORNING OF JUNE 2, 1898, LIEUTENANT HOBSON BORED THE COLLIER "MERRIMAC" INTO THE NARROW ENTRANCE OF SANTIAGO HARBOR, HEADING FOR ESTRELLA POINT. AT ONCE THE "MERRIMAC" WAS OBSERVED, AND A WARNING SHOT CAME FROM ONE OF THE SPANISH PORTS.

AS THE HUGE BULK OF THE COLLIER LOOMED UP OUT OF THE DARKNESS, THE SPANARDS, BELIEVING THAT THE AMERICAN FLEET WAS TRYING TO RUN PAST THE PORTS INTO THE HARBOR (AS DEWEY HAD DONE AT MANILA BAY), BEGAN SWEEPING THE NARROW CHANNEL WITH A DEADLY PLUNGING FIRE.

CRASHED BY THE TERRIBLE STORM OF SHOT AND SHELL, HOBSON STEERED STRAIGHT FOR ESTRELLA POINT. A SPANISH SHOT CRIPPLED THE "MERRIMAC'S" STEERING GEAR, BUT THE SWIRLING FLOOD TIDE BORE HER SWIFTLY TOWARD THE DESIRED SPOT.

ARRIVING AT A POINT NEAR ESTRELLA BATTERY, SHE WAS STOPPED, AND THE SPANISH SHOT AND STERN, BRUISING THE COLLIER, AND THE CHANCES OF HER ESCAPE FROM THE CHANNEL OF PORT SANTIAGO. THE COLLIER SANK, BLASTED BY THE SPANISH BATTERY.

## PRISONER LIVES UP TO HIS NAME

Placed in Jail on Charge of Stealing Automobile, Henry Measles Breaks Out

HOT SPRINGS (Ark.) April 22 (Exclusive)—Henry Measles of Cincinnati, O., arrested on a charge of stealing a Chevrolet car in Ohio, and driving it to Hot Springs, broke his cellmate in the City Jail, Paul Wheeler, who has confessed to robbing the postoffice and three stores at Norman, Montgomery county, and said: "My name is Measles and I am sure 'going to live up to it by breaking out.'"

Wheeler said he declined the offer to escape. He preferred, he said, to take chances on getting a good "break" later, but not with Measles. When Measles passed the tier of cells on the second floor they found the door leading to them open. Investigation showed that Measles had broken out.

Measles was arrested on a charge of stealing a Chevrolet car in Ohio, and driving it to Hot Springs, broke his cellmate in the City Jail, Paul Wheeler, who has confessed to robbing the postoffice and three stores at Norman, Montgomery county, and said: "My name is Measles and I am sure 'going to live up to it by breaking out.'"

Wheeler said he declined the offer to escape. He preferred, he said, to take chances on getting a good "break" later, but not with Measles. When Measles passed the tier of cells on the second floor they found the door leading to them open. Investigation showed that Measles had broken out.

## FIGHT TO OUST KLAN REVIVED

GREENSBURG (Pa.) April 22 (AP)—Five banished members of the Ku Klux Klan whose recent Federal court suit in an effort to obtain an injunction to restrain the Klan from functioning in Pennsylvania was ruled out by the court at Pittsburgh because of lack of jurisdiction, decided here today to institute quo warranto proceedings before State Attorney-General Baldwin in an attempt to have the Klan ousted from Pennsylvania.

This proposed action, it was said, would be based on a transcript of evidence submitted at the trial of the suit.

It was announced also that application would be made to the Governor of Indiana for a pardon for D. C. Stephenson, former national Klan leader.

Stephenson was pardoned by Governor Herrick in 1926 after serving a term in prison for bribery and other crimes.

He had been a member of the Ku Klux Klan and was active in its activities.

## DATED GIRLS TO PAY FIFTY-FIFTY

Men Students at Northwestern University Say Equal Rights Should Mean Sharing Responsibilities, So Co-eds Will Spend Own Money at Parties

CHICAGO, April 22 (Exclusive)—"Women are demanding equal rights with men and they should share in the responsibilities of men," said Edward Martin, one of the speakers at a meeting of Northwestern University students, called for the purpose of righting a number of alleged college wrongs. Mr. Martin evoked hearty masculine applause when he said:

"Now this business of the men paying all the expenses of a party is a relic of the days before women had their independence. Now that women have their rights, they should go fifty-fifty on dances, parties and other functions."

This staggered the co-eds for a moment until one beautiful girl with blazing eyes took the floor.

"Why, of all conceded ideas" she spluttered, "I suppose the men at Northwestern think we should pay them for the privilege of going out with them."

"Conceded, conceded, conceded!" chorused all the indignant co-eds.

"Peace!" counseled one of the men. "You have the wrong slant. If the girls would pay half the expense we could have more dates."

A lot of us are working our way through college and some of us get a small allowance. In many cases smaller than the allowance granted girls. So many of you do not get dates with us because we have no money."

So it was agreed to try the experiment of girls paying their own way at all parties.

The experiment was agreed to by the students.

## Memorial Rites Said for Dr. Hunt

BERKELEY, April 22 (Exclusive)—Memorial services for the late Dr. Thomas Forsyth Hunt, former dean of the college of agriculture of the University of California who died on April 20, 1927, were conducted this afternoon on the campus at the west entrance to Hilgard Hall, in which Dr. Hunt had his offices for many years.

Dean E. D. Merrill of the college of agriculture presided. The speakers were Chester Rowell, representing the regents; Robert G. Sprunt, representing the administration of the university; Dr. Herbert J. Webber, director of the Riverside experimental station and a personal friend of Dr. Hunt for more than thirty years, representing the faculty, and R. R. Barrett, senior student of the college of agriculture, representing the student body.

The services were held in the Hilgard Hall, in which Dr. Hunt had his offices for many years.

## PRESNO COUNTY RICH IN MANY RESOURCES

Writer Sees Valley of the Sun as American Counterpart of Nile and Danube Regions

BY FRED HOGUE

PRESNO, April 22.—Presno county stretches, like a Persian rug of green, white and gold design, from the summit of the Sierras to the floor of the Valley of the Sun; rich in soil, rich in fruit and vines, rich in pasture lands, rich in cotton, rich in oil, rich in timber, rich in iron ore, rich in hydroelectric power, rich in its diverse scenic beauty—but richest of all in a free, prosperous and, excepting the Democrats, contented people.

I have visited many countries and peoples, but I have seen none of so limited an area that can claim with more justice to be self-sufficient. The nearest approach, outside the San Joaquin Valley, would be the Valley of the Danube in Hungary. Some may be as rich or richer in a few things, but none are richer in so many.

### RIVERS OF GOLD

I am now in the city of Fresno, located in the center of the San Joaquin Valley, its wealthiest and most populous city. I came here yesterday from the north by automobile. I passed through five counties, twenty-five cities and towns, crossed seven rivers whose waters might be compared to liquid gold; and all in a distance of little more than 100 miles. I was seeing the San Joaquin Valley at the rate of ten towns an hour. The only uncultivated acres were narrow stretches of swampy land immediately adjacent to the rivers.

All these counties, San Joaquin, Stanislaus, Merced, Madera and Fresno, are self-sufficient—and more. They raise enough agricultural and horticultural products to feed themselves and more than double their population outside. For diversified products they can be approached only by other counties of California. With the exception of a few seasonal fruits, it can be truly said that, if it grows profitably anywhere, it will grow profitably here.

Richly productive, perhaps, are other counties of the State highway and farther to the south. I am only writing of the part of the valley through which I have passed, the valley that is to Central California what the Valley of the Nile is to Egypt.

### FERTILE HINTERLAND

Fortunate are the two great commercial and industrial cities of California, the one to the south and the other to the north, both resting so productive a hinterland. Fortunate is the valley in possessing this choice of market. Where there is competition there can be no monopoly. From here it is about 200 miles to San Francisco and 250 miles to Los Angeles. But the valley is the valley that these two cities, with a combined population of 2,000,000, together with the lesser municipalities to the north and the south, cannot consume the half of some of its products. For the peaches and raisins markets would be found as far east as New York; and the eastern markets are far from stable. In both deciduous and citrus fruits the valley comes into competition in the outside markets with those of the productive, well-cultivated counties of Southern California, and of Georgia and Florida.

These unstable outside markets bring occasional depression, sometimes in one product, sometimes in another. The wheat and strong agricultural survivors, and the weak and foolish go to the wall. Speculation in agriculture is as dangerous as in any other business. Not all things that can be grown here can be grown always at a profit. There are years when raisins sell for more than 6 cents a pound and other years when they sell for less than 2 cents. If they sell at all.

### ONE GLOOMY NOTE

One must know what to grow as well as how to grow it. During the last five years many small fortunes have been doubled and tripled in this part of the valley, and some have been wiped out. The losers are rich in experience, but poor in pocket; and experience that is purchased at the price of the last dollar of one's available capital can seldom be turned to an immediate profit.

Perhaps I struck Fresno at the wrong time. When I went into the lobby of the Fresno Hotel I found it had been rented to a bunch of Democrats for a political meeting. It was a kind of rendezvous of the discontented. The wall was that of Jerusalem. All was corruption; all was vanity. They viewed all with alarm, from the surplus in the Treasury to the exorbitant price of bootleg liquor.

I defy anyone to get a cheerful outlook on the present or the future from a Democratic meeting.

So I wended my way over to the Chamber of Commerce to ask what it was all about. That Democratic meeting still rested on the elated spirits I had brought with me from the blossoming fruit orchards and fields of waving grain with the buoyancy of a wet blanket. The leaders of many of the buildings I passed were decorated with pennants and streamers, not of crepe, but of blue and gold. The Chamber of Commerce Building, standing in the midst of a flowering park, fairly radiated color. Secretary Agency met me at the door of his office with the smile and the handshake of one who is happy to be alive and happy to tell why. His face was a sun, dispelling the gloom of Democratic despondency.

Just one look at him sent the stock of Fresno city and county up 100 per cent. He laid his cards on the table—maps, charts, pamphlets, folders, tabulated statistics.

### RAINBOW SIGHTED

"Fresno county, along with the rest of the valley, has passed through the storm and stress of agricultural depression during the last three or four years," he said with every appearance of frankness, "but we have weathered them. The worst is behind us. The last

## COLLEGE SINGERS ENTERTAIN VALLEY

Redlands University Glee Clubs in Successful Season

Glee Clubs of Redlands University. Director of the men's group is Prof. W. B. Olds and the violinist is Ernest Oms. Prof. Frederic C. Butterfield is the director of the girls' club.

## TWO GIRLS HURT IN CRASH

Machine With Monrovia High School Students Hits Light Pole; Costly Fur Coat Vanishes

PARADISE, April 22.—Two Monrovia High School girls were seriously injured, a valuable fur coat was lost, and an electric light pole damaged in an automobile crash here at 3 a.m. today.

Margaret Hiltchcock, 18 years of age, and Ruth Williams, 15, were treated in the Pasadena Emergency Hospital for lacerations and possible internal injuries sustained when the car in which they were riding with two Monrovia boys struck the pole at West Foothill Boulevard. Neither of the boys was injured.

Fred Cronin, 17, told police that he lost control of the automobile when he was blinded by approaching headlights. He declared that he was driving at a moderate rate of speed, although the officers, in their report, said the condition of

## Pacoima Dam Report Ready

VAN NUYS, April 22.—County Flood Control Engineer E. C. Eaton announced today that the board of consulting engineers engaged in a survey of the substructure at Pacoima Dam have completed their work and that their report will be handed to the Board of Supervisors for approval tomorrow morning. It is understood that the report will recommend Eaton's plan for strengthening the one side wall foundation. If the Supervisors act favorably on the report, work on Pacoima Dam will be resumed at once.

## OBJECT TO OIL RIGS IN HILLSIDE SECTION

CAHUENGA PARK, April 22.—The Ventura Boulevard Chamber of Commerce went on record today as opposed to the granting of oil drilling permits to companies wishing to drill for oil in this vicinity, several of which own leases near the Adolphe Stock Farms. The chamber declares that this vicinity is filled with high-class homes all situated in a high-class residential district and that the drilling for oil would depreciate land values several million dollars' worth. Directors of the chamber also contend that there is no oil in paying quantities in any of the hillside country bordering Ventura Boulevard. Letters of protest have been sent to the Los Angeles City Council and to members of the City Planning Commission.

## PROPOSED FIRE LAW RIGID

Owners of Cabins in San Bernardino Mountains Affected by Provisions of Ordinance

REDLANDS, April 22.—A new county ordinance to help prevent fires in the San Bernardino Mountains is ready for action by the Board of Supervisors, according to George S. Hinkley, city engineer here, who is a member of the County Forestry Board.

There is also an amendment to the present county fire ordinance providing the County Forester with power to close certain areas of high fire hazard, outside the national forest, during the fire season. The ordinance and amendment to the old law will probably be presented to the Supervisors in legal form at an early meeting. The ordinance was outlined by the County Board of Forestry which includes Dr. J. N. Baylis, chairman; R. B. Peters of Devore; Earl F. Vanlunen of Colton; C. Hinkley, C. A. Hanson of Upland, and R. M. Tuttle, county forester.

## MANY COSTLY HOMES RISING

Paradise Residential Plans Call for \$400,000

Bell Room Will be Unique Feature for House

San Marino Shares Heavily in Building Program

PARADISE, April 22.—Private homes costing more than \$400,000 are being planned or are in course of construction here the Builders' Exchange Bureau announced today.

Ground has been broken for a \$400,000 residence to be built on the Huntington Hotel grounds for Mrs. Robert Burdette. A feature of this home will be a "bell" room in which bells collected by Mrs. Burdette from all parts of the world will be displayed.

An eight-room house which will cost \$250,000 is to be built at 200 Fern Drive by Dr. V. Most. Plans by J. A. and E. R. Shepherd are the contractors.

Plans for the Maronde residence in San Marino call for the expenditure of \$200,000. The home will be a two-story, ten-room structure.

Three two-story frame and stucco homes are to be built here at an estimated cost of \$200,000. Everett P. Babcock is the architect. The name of the owner is withheld.

A. H. Thayer of 565 Eldon avenue, will build a \$700,000 residence in San Marino.

Anna Latham of 2505 Shalona avenue, will build a \$200,000 home at 1645 Oak Grove avenue, San Marino.

Plans have been completed for the erection of a twelve-room English-type residence on Spruce street for Bruce P. Brown. The cost is estimated at \$25,000.

A frame and stucco home for Mr. Mrs. W. F. Warwick, to cost \$10,000, will be built in San Marino.

## Gridiron Star Leases Hotel

PARADISE, April 22.—Walter P. Ray, Jr., star running guard on the University of California's championship football team in 1933 and 1934, is the new lease of the Ritz Hotel here, which changed hands last week, it was disclosed today.

A ten-year lease was obtained from L. H. Thompson, owner of the structure, which was built, six months ago. The deal involves the disposal of Mr. Ray's father's interest in the Hotel Lindsay at Lindsay, it is reported.

The former football star stated today that plans have been completed to add two stories to the three-story hotel building and that new furnishings have been ordered. With these additions, the Ritz will be the largest strictly commercial hotel in this city, he said.

The building is located on Green street, opposite the site of the proposed new Santa Fe Railroad waiting room.

During his high school days at Venice, Ray was a member of the Huntington Park, April 22. Ray Carter, president of the Training School for Christian Workers, has been called to Wichita, Kan., to the bedside of his brother, Dr. T. J. Carter, who is critically ill with pneumonia.

## STRICT SANITATION ORDINANCE SOUGHT

SAN DIEGO, April 22.—To give the public full protection against the sale of meat and fish that are not fit for human consumption, the City Board of Health has sent to Council a lengthy ordinance requiring all slaughter houses, meat and fish markets and peddlers' wagons from which fish and meat are dispensed.

This ordinance will come before the Council tomorrow with the health board's request that it be adopted.

Accompanying the ordinance is a petition to the Board of Health from meat dealers asking that peddlers' wagons, from which meat and fish are sold, be barred from the parts of the city, be barred.

The market men assert that the wagons do not come under the restrictions now existing under the municipal laws for the regulation of the meat and fish business and that some of them are undesirable.

## COMMUNITY CHEST CAMPAIGN STARTS

POMONA, April 22.—With the goal this year set at \$7,500, Pomona's annual Community Chest drive gets underway tomorrow morning, with an array of workers all ready for the opening while under the leadership of Campaign Chairman C. E. Houston.

The volunteers have been divided into fifty teams and the city into ten districts. 300 workers being pledged to canvass the city in the six-day period set aside to raise this year's quota.

## MORE LIGHT ON HIGHWAY

Alhambra Business Men Along Valley Boulevard Plan Celebration for May 5

ALHAMBRA, April 22.—Valley Boulevard, extending through this city for two miles, will present a gala appearance on May 5 when a jubilee will be staged in celebration of new street lights and other improvements.

Plans for the event have been the entire length of the boulevard under way for several weeks, the committee, composed of business men of the district, having worked out a program of diversified nature.

One of the features of the frolic will be the selection of a queen, who is to be a high-school girl to be chosen by popular vote of the students. Her attendants will be girls from the elementary schools.

The contest will close May 4. A parade will be held in the evening and will be followed by a marathon dance over

## GOOD JOB FOR IDLE MOMENTS

Kansas City Film Will Pay \$100 for Each Mountain Lion Delivered There

GLENDORA, April 22.—If in need of a few hundred dollars, opportunity is beckoning to the mountains here. Just catch several mountain lions, male or female, and cash in on them at \$100 each.

This offer came today to Arthur Shay, district ranger here, from the Horne Zoological Arena Company of Kansas City, as result of a report in the Los Angeles Times that lions were too numerous in his district. Shay said he would pass on the order to anyone interested in filling it.

## LOMA LINDA ADVENTISTS WILL BUILD

Sod Turned for \$250,000 Sanatorium Addition at Foothill Colony

LOMA LINDA, April 22.—With impressive exercises ground was broken today for the new \$250,000 addition to the Loma Linda Sanatorium which is operated by the Seventh Day Adventists. This is the latest project in the colony here which new has grounds and buildings valued at more than \$2,000,000.

The present sanatorium, which has been in use for several years, crowns the hill around which the Seventh Day Adventist colony is gathered. It is partly a frame structure but the new addition will be concrete, fireproof and modern in every respect with all modern and other equipment.

Dr. B. L. Burgeson, medical superintendent of the colony, which includes not only the sanatorium but the College of Medical Evangelists, broke the ground and spoke of its significance in the life of the community. Dr. F. B. Hays, chairman, gave the prayer and G. L. Curtis, business manager, presided at the dinner.

Dr. Burgeson, who presided at the exercises for friends of the sanatorium.

Many of the guests were officials of the local business community. The new addition will be a two-story building, 100 feet long and 40 feet wide, and will contain 100 beds.

LOCAL TENNIS STARS VANQUISH DAVIS CUP ACES

**MTIGUE TO FACE EMANUEL**  
SAN FRANCISCO, April 22. (AP)—Mike Mtigue, two-time king of the light heavyweights and still regarded as a mighty capable performer, will pit his ring mastery against the ability of Armand Emanuel tomorrow night.

**HAGEN OUT TO WIN THIRD BRITISH OPEN GOLF TITLE**  
NEW YORK, April 22. (AP)—The British open golf championship trophy, which has been won by a player from the United States in six of the last seven years, is in danger of again crossing the Atlantic Ocean from east to west.

**Valley People Ask Railway Revamp**  
VAN NUYS, April 22. (AP)—The Van Nuys Board of Public Works today asked the Southern California Edison Co. to make a revamp of the city's power lines.

**DEADLINE SET FOR ROSE BOWL**  
PARADISE, April 22. (AP)—The deadline for the Rose Bowl game today was set for 11:30 a.m.

**AMATEUR FIGHTERS TO CLASH**  
BOSTON, April 22. (AP)—Three of the 1927 national amateur champions have entered the annual A.A.U. boxing championships to open tonight in East Boston.

**Cub Victory Cheered by 50,000 Fans**  
CHICAGO, April 22. (AP)—Fifty thousand fans, the largest crowd ever to witness a baseball game in Chicago, watched the Cubs win a 3-2 victory over the Pirates in the opening game of the series today.

**SUDS SPLIT TWO GAMES WITH STARS**  
SEATTLE, April 22. (AP)—The Seattle Indians turned on the Hollywood Stars and beat the visitors, 2 to 1, in the first game.

**COULDN'T STOP HIM!**  
Big Bill Tilden and Arnold Jones couldn't keep track of Ben Gorchakoff yesterday so the local net star and Gerald Stratford beat the Davis Cup aces. Photo shows Gorchakoff in action.

Coch Howard Jones Plans at Least One Sixty Workout Weekly for Gridders During Spring Practice at Bovard Field

BY BRAVEN DYER

This business of spring football practice is no light task, as Howard Jones' toiling Trojans are beginning to discover. The boys have been at it two weeks now and some of them are gradually learning what it's all about.

Coch Jones has ordered at least one sixty workout each week, with Friday afternoon set aside for this purpose. Inasmuch as the Trojan ball club was playing St. Mary's at Bovard Field yesterday, the Friday workout took their stiff workout Thursday.

Charles Erb, Idaho coach, is in the city for the summer. He is with Jones at Bovard Field today.

"Too bad we aren't having football practice today," said Jones. "You could look over our stuff."

"Wouldn't he mind much?" remarked Cravath ironically. "Unless he could learn it a lot faster than your football players do."

Erb's brother is a motor cop along the Ridge Route. While Charles was driving down Jones' road north he stopped to have a chat with the other member of the family.

"Ray, how many cow-men did you have out there?" inquired the officer of the law.

## NEW MINE MILL HELD EFFICIENT

Belmont's Plant at Superior Proving Success

Values in Tailings Declared to be Negligible

Project Reported Handling Fifty Tons Daily

SUPERIOR (Ariz.) April 22. (Exclusive)—The new Belmont mill is handling fifty tons a day in one shift and has established the efficiency of the process adopted, for the tailings are almost without trace of value. The ore, mainly from the 1100-foot level, averages around 100, almost all in silver, with little lead, the balance of the concentrates largely being in iron pyrite. It comes from a broad quartz ledge, the Eureka, with several feet of milling ore and with small pockets of high-grade, that is being saved up for separate consideration. Concentrates are going to the Magma smelter, three miles away, though a change to Douglas may have to be made in the event of an increase in the lead. The mine, under charge of Chester Belmont, is the old Consolidated property, once in the hands of Calumet and Arizona. Development of the mine with has been made to 1600-foot depth, with copper understood to be showing at the bottom. This is the usual condition in the district, as shown by Magma operations, where the copper occurs in cross-veins. The Magma also has several valuable silver lenses.

Magma employs about 750 men, half of them underground, and is operating one reverberatory furnace and a mill. Most of its output is shipped to the Magma smelter, where William E. Koerner has completed the work of repair of a shaft that was burned out in November, with loss of life and much damage to timbering. The main shaft was not affected.

S. A. Balcif, manager of the Pacific Lead-Silver, reports a strike of heavy lead ore in the Belmont property. The vein, now about three feet in width, is broadening and is being developed. The Belmont property is now being worked by Magma operations, with loss of life and much damage to timbering. The main shaft was not affected.

Resumption of work in the development and operation of the Belmont property is now being worked by Magma operations, with loss of life and much damage to timbering. The main shaft was not affected.

## RARE MINERALS, METALLURGY, CHEMISTRY

LOS ANGELES, April 22.—Question: I am sending by mail a sample of mineral taken from a body of rock about twenty-nine feet wide with a basal contact on one side and a porphyritic contact on the other side. The ledge is located some fifteen miles north of Oropisa Creek, Colo. Thanking you in advance for your analysis.

Answer: The specimens carry no calcite and hematite is absent. They contain magnetite and react slightly for zinc.

Uranium Assay: SAN BERNARDINO, April 22.—Q: Under separate cover please find seven ore samples for analysis. What is the black mineral in Nos. 1 and 2? Any gold or silver in No. 3? Kindly classify No. 4. What are the base metals in Nos. 5 and 6? Any uranium, gold or silver in No. 6? What is the bright mineral in No. 7? All of the specimens were taken from Silver Mountain.

A: No. 1 is dolomitic limestone; slight zinc and stromant reactions noted. No. 2 is a variety of calcite, calcite and hornblende present. Sample rather small for satisfactory tests. No. 3 looks like some magnetite, is greatly altered and reacts sparingly for antimony. No uranium found. No. 4 is limonite (hydrated iron peroxide) with brownish hematite. No. 5 is hematite; limonite; uranium not present. No. 6 is red jasper-colored with baked clay. Free gold and silver present. No. 7 is hematite. For other gold and silver values consult assays.

Eight Specimens: ALHAMBRA, April 22.—Q: Am enclosing seven ore samples and one of oil and sand for analysis. Please let me know what you can find. I expect you will find some gold and silver in Nos. 2, 3, 4 and 5. The oil sand is from the Imperial Valley country.

T. M. A: Sample No. 1 is not banded; it is a mixture of siliceous and limonite. No. 2 is massive magnetite. No. 3 is hydrous aluminum and magnesium silicate mixed with limonite. The granular mass in No. 4 is calcite. No. 5 is a mixture of siliceous and limonite. No. 6 is a mixture of siliceous and limonite. No. 7 is a mixture of siliceous and limonite.

Paraffin Mass: LOS ANGELES, April 22.—Q: Will you please inform me if the enclosed sample is ambergris, and if so, what is its value? I can find a market for it.

A: The sample is far removed from ambergris.

"Silicified" FOREST, April 22.—Q: Will you kindly identify the piece of rock I am enclosing for you under separate cover? It is from the hanging wall of a ledge in this section of Sierra county and we think it is a sort of altered slate, but that is merely guessing.

A: The specimen is a silty-shale showing "silicified" of the hanging wall of the Sierra county and we think it is a sort of altered slate, but that is merely guessing.

REPORT ON SHATTUCK MINE ROSY

President of Company Stresses Importance of Recent Strike

LOS ANGELES, April 22.—(Exclusive)—In the annual report of President L. C. Shattuck, large importance is attached to the recent strike in the Shattuck-Cann Mining Company's local property. The new ore, reported to be averaging better than 14 per cent copper, was out on the new 2000-foot Denn shaft level, in the form of glance and sulphides.

This development is being continued vigorously, with the expectation that a valuable addition has been given the copper producing area of the district. In the company's Shattuck mine about 7000 feet of development was done during the year, with the holding of the Denn shaft for the copper. There were found several bodies of rich ore, both lead and copper, and more expectation of important results from work being pushed into new sections of the mine.

Copper ore goes to the Calumet and Arizona smelter at Douglas, while the lead is handled in the Phelps-Dodge concentrator within the district and by the Phelps-Dodge lead stack at Douglas. F. O. McGrath is in charge of operations. The company is installing an electric hoist in the Denn operations.

Phelps-Dodge's Warren shaft is down to 1800 feet, where a station is being cut. Sinking under contract to the Longview Development Company, will be continued to at least 200 feet greater depth. Till the shaft has been bottomed there will be no lateral work. Station for such work have been established on the 700, 1000, 1200, 1600 and 1800 levels. The shaft is expected to be of large importance in the development of the company's ore bodies.

WILDCAT TO START

General Petroleum Will Drill Test at McFarland

MCFARLAND, April 22.—(Exclusive)—The General Petroleum Corporation is about ready to start its test well in the McFarland area on a location approximately 600 feet north and 600 feet southwest of the corner of Sec. 28, T. 25, N. 35, E. 1.

Cy Bell of Bell & Little Producing Company will have charge of operations. McFarland residents are eagerly watching developments as the hole will be drilled in virgin territory.

## GASOLINE DATA GIVEN OUT

Mines Bureau Survey Shows Total Number of Plants in United States on January 1 as 1155

There were 1155 natural-gasoline plants in the United States on January 1, 1928, according to a survey made by the United States Bureau of Mines. In addition, there was one small plant in Alaska. Of the total plants, 1005, or 87 per cent, were in operation on January 1, leaving 85, or 7 per cent, inactive. The total number of plants had an indicated capacity of 8,044,000 gallons a day, of which only 20,000 gallons, or 4 per cent, was shut down on January 1.

Oklahoma is by far the leading natural-gasoline state, with a total of 1,200,000 gallons, or 15 per cent, of the total. A total of 105 plants use a combination of processes, principally a combination of the compression and absorption processes, and twenty-seven plants, of a total capacity of 214,000 gallons, use the charcoal process.

Despite a general decline in natural-gasoline prices during the past few years, the number of gasoline plants has increased, the bureau points out. This apparent paradox is due to a number of reasons, such as reduced costs and greater efficiency in operation, to an increase in the number of portable plants, or in general, new plants built to keep abreast of the rapid expansion in crude petroleum production. While the number of plants is increasing, the number of operators has declined, showing a tendency to centralization as a cost-reducing factor.

No. 3 grav. Found in Elkhart, Cal. Sample No. 1 is altered rock and laminated granite in part. Brownish iron oxides present with microscopic iron and manganese. The grayish specimen is from a seam some three-quarters of an inch thick; it is a schistose rock in part hornblende. It contains graphite traces on both sides of the rock and is spotted with titaniferous iron and specular iron ore.

## MISSIONS HELD HEALTH MENACE

Bureau for Homeless Men Completes Work

Need for Clearinghouse Declared Urgent

Municipal Lodgings for Indigent Suggested

Work of the municipal service bureau for homeless men, operated for fourteen and one-half weeks at 433 Central avenue, has demonstrated urgent need of a central clearinghouse for all types of homeless men, irrespective of the length of time they have been in the city, according to a report compiled by the department of social service in the City Hall. The report, which was made available to the public, suggests a municipal lodging-house.

The bureau, which closed its doors a week ago, was operated for the winter season with funds appropriated by the Mayor and City Council to serve homeless men who had been in the city less than three months, so that they would not spread disease, increase the number of unemployed or become a crime menace.

**THOUSANDS ASK AID**  
A total of 4199 men applied for aid at the bureau, 70 per cent of them being between 20 and 43 years of age. Thirty-seven nationalities were represented, including 3904 Americans and 415 Mexicans. The number of single men totaled 3665, and 833 married.

The number who stated they had served in the Army or Navy was 2460, while 2898 had been in military service. Unemployed laborers totaled 2460; semiskilled, 609; trades and mechanics, 604; casuals and salaried, 167; professions, 10; merchant seamen, 118.

Lodging tickets issued totaled 7290; meal tickets, 31,788; assigned to work in city parks, 193; denied aid, 58; advised to leave city, 578; information only, 58; carfare given, 178.

**MANY HERE ONLY WEEK**  
Of the applicants, 2286 were in the city less than a week. Those less than one month totaled 1043. Over three months, the list was 108.

The report, compiled under direction of Sup't Stanley E. Bernard of the social service department, says:

"Such a clearinghouse as suggested will prevent duplication and repeating by many of the men who now make the rounds of the relief agencies under different names. Its functions must include registration to prevent duplication and a physical examination for discovery of disease.

Afterward the clearinghouse can refer them to the proper agencies for aid and rehabilitation.

**MISSIONS MENACE**  
There are certain missions now doing relief work for homeless men, whose methods are such that they are not encouraged to help themselves. The sanitary and health conditions under which these missions operate make them a menace to the city. Their premises are mixing of all types and all ages of men and boys is very discouraging and demoralizing to the younger ones and worthy men. They give a permanent home to aged, indigent men, who

## HAND BITER BIT IN WIFE'S SUIT

Husband Accused of Taking Nip at Wife's Hand

He hit the hand that fed him.

This was the accusation of Mrs. Ella Ostrove in the hearing of her divorce case against her husband before Superior Judge McComb.

According to the wife, Ostrove hit her hand while she served his dinner.

A decree was granted.

\*\*\*\*\*  
would be more comfortable and better cared for at the county farm, but who refuse to stay there as long as the last method of the missions referred to permit one old man to live there, and indulge their appetite for liquor—usually purchased with money begged from the public.

These missions are not subject to sufficient control to reform them, and the only solution is in the establishment of a municipal lodging house. After this, municipal lodging house is in operation, it will then be feasible and proper to advise the public not to support the questionable missions.

Lacking a municipal lodging house, we are not now in position to discourage these missions as they afford the great bulk of the shelter available for this type of men, though, as stated, that shelter is of the poorest and most undesirable type.

**FIRE CASE SENTENCE SET TODAY**

Defendant Convicted of Burning Millinery Place Faces Prison Term

Facing from one to ten years in San Quentin following his conviction on a charge of burning insured property with intent to defraud, Harry Stern, former proprietor of a millinery manufacturing company at 343 South Broadway, will appear for sentence today before Superior Judge Henderson.

In his argument to the jury that deliberated on Stern's fate less than two hours, Dep. Dist. Atty. Choate cited Stern's admission that he left the store at 4:10 p.m. on the afternoon of February 18, last, fifteen minutes before the fire started. Investigation from the police-arcade showed that Stern had a gasoline-soaked box in one corner of the store and that many of the with herons. Prosecutors Choate also brought out that Stern had taken out \$5000 insurance on his merchandise, the store being leased from the Trustee Company, Inc.

The defendant was acquitted of the arson charge, but convicted of burning insured property.

**MUSICAL NUMBERS**  
"What's an operetta?"

"Don't be foolish—it's a girl who works for the telephone company."

**BOYS' WEEK PLEA MADE TO CITY MEN**  
Full Co-operation Urged at Dinner of "Men's Day in Boyhood"

Asking co-operation in activities of Boys' Week, thousands of letters were mailed yesterday to business and professional men by leaders of civic and ministerial bodies. The letters urged 1000 men to attend the Men's Day in Boyhood dinner in the Alexandria Hotel next Monday.

The letters were signed by Mayor Cryer, Mrs. Susan M. Dorsey, President George L. Eastman, President William Lacy of the Community Chest, Rt. Rev. John J. Cantwell, D.D., bishop of Los Angeles and San Diego, Rt. Rev. W. Bertram Siegel, D.D., bishop-coadjutor of Los Angeles, Dr. W. E. Buchanan, president of the Church Federation of Los Angeles, Rabbi Edgar F. Maginn, Judge Robert H. Scott of the Juvenile Court and Joseph Scott, named grand marshal of the parade to be held Friday, May 1.

This week's elections are to be held in the schools for public officials who will act as city, county, State and Federal officers next week.

**SIGNALS PETITIONED FOR**  
The City Building and Safety Commission has received a petition to order the installation of automobile traffic signals at Sunset Boulevard and Douglas street.

The Los Angeles public schools will be represented on the faculty of the University of Southern California summer session in Los Angeles.

Arthur Gould, assistant superintendent of schools, will give courses on the administration of city-school systems. Albee G. Chapin, supervisor of the speech-correction department, will discuss work with children who are defective in speech. Flora D. Smith, director of immigrant education, will conduct a class in the teaching of English to the adult immigrant.

The field of vocational education will have five representatives: Albert S. Bullock, supervisor of commercial education, and Leslie G. Stier, assistant director; Claude E. Hubert, supervisor of industrial arts in junior and senior high schools, and Howard C. Walcott, vice-principal of the Frank Wiggins Trade School.

In addition the faculty of the education department will include thirty-six instructors from eastern and local universities.

The summer session opens July 2 and closes August 11.

**Lecturer Holds Everything Said by Shakespeare**  
Shakespeare said all that needs to be said on human psychology and on human emotions, Robert Bosworth declared in the course of a talk on Shakespeare yesterday at the Southwest Museum. "Nothing outside of Holy Writ carries such authority as do his plays," Mr. Bosworth said. "Hundreds of people who hear a quotation of which they do not know the source invariably feel that it is either the Bible or Shakespeare."

Mr. Bosworth expressed himself as opposed to the presentation of Shakespeare's works in modern dress. "His plays were conceived in an age when simplicity and directness were characteristic of man's nature and should always be presented with a setting of that age," he declared. "Modern dress mars the perfection which marks his work."

**EVENING SCHOOL WILL BEGIN NEW COURSES**  
McKinley Evening High School is enrolling students for short-unit courses which will be started tomorrow evening. The classes will offer instruction in a wide variety of subjects and continue for a period of ten weeks. McKinley has had a large enrollment of students this year and the opportunity now offered to beginning students will be appreciated. McKinley Evening High School at the corner of Vernon and McKinley avenues is conducted by the Board of Education and instruction is free to all.

## HUMAN NEED FILLED, SAYS ROSICRUCIAN

Infinite Warehouse Has Ample Store, Imperator Tells Audience

All human needs are provided for in the warehouse of the Infinite, declared Dr. H. Spencer Lewis, Imperator of the Ancient Mystical Order of Rosicrucians, addressing a capacity audience yesterday in the Music-Art Hall, on "The Secret of the Oriental Method of Concentration."

Since divine principle has established an abundant source of supply, Dr. Lewis asserted, it is presumptuous for any person to try to advise Divine Intelligence concerning its distribution. It is wrong, he said, to assume that human needs are unknown to the Infinite.

The real difficulty, he asserted, is for mortals to distinguish between real and fancied needs. Before undertaking the concentration process, he said, six questions must be asked and answered by the applicant, preferably in solitude. They are:

First, What is it I really want? Second, Why haven't I it? Third, Do I really need it? Fourth, Can I obtain it without concentrating? Fifth, If it comes to me, will it inconvenience some one else who has the thing I want? Sixth, What will I do with it when I get it?

After answering these questions, Dr. Lewis prescribes a form prayer to be recited by the student. The Rosicrucian leader said, the picture should be dismissed from the mind. Repetition, he said, will in no wise affect the result.

Dr. Lewis will visit Rogers airport today at 10 a.m. to take his first air ride. He arrived Saturday from organization headquarters in San Jose and will deliver several lectures during his three-day visit. Subsequent lectures, however, will be for members of the order only.

**Sawtelle Show Gives Program**

Every variety of bloom for which California is noted will be on display at the first annual University District Flower Show and Trade Exposition which opens at Sawtelle Wednesday for four days. The commercial interests of the district also will be demonstrated in exhibits from the communities of Sawtelle, Bel-Air, the Riviera, Brentwood, Heights, Brentwood Park, Pacific Palisades, Santa Monica Canyon and Westwood Hill.

A program of music and other entertainments under the general direction of Freeman Lang, will be given afternoons and evenings, and on the closing night there will be an elaborate fashion review.

Sponsoring the event are the University branch of the Los Angeles Chamber of Commerce and the University of California at Los Angeles. The U.C.L.A. band will play. Any profits will go toward moving the mortgage from the Women's Club, which with the merchants' division and the Lion's Club will conduct the show.

**ILLNESS OF MOTHER CALLS WRITER HOME**

Dorothy Woodridge, magazine writer, left yesterday morning for Chattanooga, Tenn., in response to a telegram announcing the critical illness of her mother, Mrs. E. B. Rawlings, with pneumonia. Mrs. Rawlings' home is on Lookout Mountain, just outside of Chattanooga, but she spends the winters in the city.

**CHINESE TO FACE COURT**

Chan Poo, chief steward on a Hawaiian liner, will have to talk fast to the court today when he appears before United States District Judge James for sentence. The Chinese landed at the port at San Pedro with a bag which customs inspectors asserted held a large quantity of opium.

**PRINCIPAL TO GIVE COURSE**

An addition to the Trojan family for the summer months is to be Alfred L. Bonham, principal of the Los Angeles Polytechnic School, who has been appointed to serve as a visiting instructor in education for the 1928 summer session of the University of Southern California from June 18 to August 10, next. He will head a lecture course in "Progressive Education for the Adult."

Special Attention for hard-to-clean Children's Clothes

Troy's service for grown-ups which has made some 10,000 women to this laundry is only one and rigid in the matter of children's clothes.

Complete laundry service except damp and dry.

Telephone: For Los Angeles and South Pasadena 3311; for Santa Monica, 2511; for Venice, 4111; for Culver City, 3111.

**DAUGHTER INHERITS**

of Valde Victim Ignoring Her Husband's Probation

She had made a property settlement, and everyone thought that marriage of Lenora E. and her husband was in, in every way legal detail, a closed book.

But Lenora E. Thompson, married in 1923, was not a matter to be dismissed so simply by the signing of documents. She had a long and "now therefore," she has come to light in the public eye.

William H. Thompson, who has been in the administration of the property settlement, will receive note from his wife, and their daughter, Lenora E. Thompson, is the sole heir.

CANADIAN NATIONAL - TO EVERYWHERE IN CANADA

# JASPER NATIONAL PARK

Vacation in this Alpine Wonderland of the Canadian Rockies

This is the vacation you have always wanted to take—a week or a month in the very heart of the Canadian Rockies. To climb majestic peaks with Swiss guides; to play golf where Alpine meadows have been made over into Canada's finest 18-hole courses; to take mule and foot trails into the edge of the great northern wilderness.

Special summer vacation fares to Jasper Park, and rates as low as \$7.50 a day, American Plan, at luxurious but informal Jasper Park Lodge, make it surprisingly inexpensive! Accommodations for 300 guests, from May 21 to Sept. 30.

Jasper National Park is on the Triangle Tour, the famous scenic triangle by which you can include 150 miles of sailing through the Inside Passage. Weekly sailings to Alaska from Prince Rupert. Ask how to include Jasper and the Triangle Tour on your Eastern trip this summer.

## SOCIETY

BY JUANA NEAL LEVY

Mrs. Myrene B. Walker, daughter of Mr. and Mrs. Ernest K. Walker of Irving Boulevard, entertained a dozen of her high-school friends at a bride-tea Saturday afternoon, the 14th inst., especially honoring Miss Louella Callahan, who left Tuesday for New York by way of the Panama Canal.

The house was beautifully decorated with a profusion of spring flowers, the table motif being yellow with flowers, candles and place cards carrying out the color scheme.

After a delightful hour of bridge tea, was served, a messenger arriving with a gift shower for Miss Callahan adding to the enjoyment of the afternoon.

Miss Walker was assisted by her mother, the guests including Miss Callahan, Miss Katherine Thompson, Miss Dorothy Allen, Miss Janet Allen, Miss Jewel Romano, Miss Helen Irvine, Miss Dorothy Crist, Miss Dorothy Blank, Miss Elsie Mulford, Miss Virginia Sheggs and Mrs. Callahan, mother of the honor guest.

**Home Again**  
Mrs. Guy Bush has returned to her home, 158 South Serrano street, after a six-weeks' trip in the East, where she visited Chicago, New York, Washington and Philadelphia.

In New York Mrs. Bush was entertained by Edwin Markham, the poet, and Mrs. Markham and the

## Smart women find TINTEX easiest to use

... every woman wishes to be well-dressed. And to be well-dressed today is largely a question of wearing the new Paris colors.

... and so the smartest women use Tintex. For they find that these famous Tintex and Dyes not only keep their entire wardrobe in the most fashionable colors but that they are easiest to use. There is never any mess or fuss with Tintex. And results are always so beautiful, so perfect.

... furthermore, Tintex satisfies every purpose of home-tinting and dyeing. There are the Tintex Tint and Dyes in the Gray Box for every material. And there is Tintex in the Blue Box for tinting lace-trimmed silks without coloring the lace. The Tintex way is the easiest way to keep your entire wardrobe in the very colors that Paris decrees. See the Tintex Color Card at your dealer's. It shows the colors on actual samples of silk.

**THE TINTEX GROUP**  
Products for every home-tinting and dyeing need.

These Gray Boxes—Tintex and dye all materials. These Blue Boxes—For tinting lace-trimmed silks, lace trousseau white.

These Color Removers—Removes old color from any material so it can be dyed a new color.

These Special Mixing for restoring whiteness to yellowed silk and wool.

at all drug, dry, store, 15¢ and smaller quantities...

**FREE TEA**  
ORANGE PEKOE

gave several lecture recitals in New York as well as at National Park Seminary in Washington, from which she was graduated in music, and also in Philadelphia.

Mrs. Bush passed a week in Chicago, where she was the house guest of her cousin, Mrs. Alexander Cameron, formerly of Los Angeles.

**Visitors Much Honored**  
Mr. and Mrs. Carl R. Gray are being extensively entertained by Omaha friends during their stay in Los Angeles. Mrs. William E. Gray, formerly of Omaha, entertained informally at luncheon for Mrs. Gray and Mrs. J. Dabney Day. Covers were laid for thirty, most of whom came from Omaha, including Mrs. Carl R. Gray, Mrs. J. Dabney Day, Mrs. Gordon W. Wattles, Mrs. Elsie Blum, Mrs. Addie Piercy, Mrs. Fred W. Metager, Mrs. Charles Moser, Mrs. Edward Heyden, Mrs. F. H. Bucholz, Mrs. Hubbard, Mrs. W. L. Selby, Mrs. Jack Summers, Mrs. J. W. Elwood, Mrs. P. W. McMullen, Mrs. Chadwick, Mrs. Tate Metager, Mrs. Lefroy, Mrs. Bishop, Mrs. M. L. Selby, Mrs. Edith Donney, Mrs. E. E. Calvin, Mrs. Nellie Calvin, Mrs. Edith Donney, Mrs. Peyton, Mrs. Katherine Selby, Miss Gail Eddy, Mrs. Mary Anderson McIntyre, Mrs. Margaret Ren, Mrs. P. R. Alden, Mrs. Croun, Mrs. W. H. Kauffman and Mrs. Klausner.

**Ben Voyage**  
Mrs. Leon Fremont Moss of South Lake street is entertaining with a luncheon party tomorrow afternoon at the Los Angeles Country Club in honor of Mrs. William H. Daum and Mrs. William Maurice Duncan.

Mr. and Mrs. Duncan with their son are leaving for Europe the next day of May, while Mr. and Mrs. Daum with their sons and daughters, Messrs. Elizabeth Rose and Dorothy Mae Daum, William Howard Daum, Jr., and Richard Hampton Daum, are sailing the next day of May for a trip around the world, to be away for at least six months, visiting all points of interest abroad and returning home by way of the Panama Canal.

**Dinner Party**  
Miss Frederica De Laguna and Miss Jessica Smith Vance, principals of the Los Angeles Country Club, entertained recently with a dinner in honor of Miss Kathryn Newell Adams, president of the Woman's College at Colorado Springs.

Spring flowers in shades of rose and violet, with candles in corresponding shades, were used for decoration.

Among the guests were Dr. and Mrs. E. C. Moore, Dr. and Mrs. Charles H. Reiber, Dr. and Mrs. Cass Reed, Mrs. Croun, Mrs. W. H. Kauffman, Mrs. Katherine Wells and Rose Reed.

After dinner, Miss Adams spoke to the students on "Education for Women in the Near East."

**Delightful Affair**  
H. R. H. Princess Eric was guest of honor Thursday at a luncheon given at the Hotel Huntington by Lady Allan. The crystal room was decorated with spring flowers and the guests were seated at a long table, oval in the middle and leading itself effectively to the floral scheme of ornamentation, red, blue and yellow. Tintex, delphinium and sweet peas were employed charmingly in the large centerpiece and big plaques between which spring blossoms formed a ribbon of color on the tablecloth.

After luncheon the party returned to Beaver Lodge, the picturesque Huntington villa occupied by Sir Montagu and Lady Allan.

**Northern Honor**  
Honoring John Victor Gally of San Francisco, editor of the Magazine of Western Finance, Mr. and Mrs. Herbert Jackson entertained a merry party for dinner and dancing at the Montmartre Wednesday evening. Guests included Misses Sally Phipps, Adele Fay, Amber Norman, Elsie Jackson, Messrs. John Victor Gally and F. Coleman of San Francisco, Philip Lonergan, Victor and Arndt Giusti, Emilio

## SOUND AUCTION BRIDGE

by Wilbur C. Whitehead The World's Greatest Authority...

Each day is published a complete hand presented by Mr. Whitehead. These hands may be played with cards by one, two, three or four players. Fill out a chart of your own and compare it tomorrow with Mr. Whitehead's. In this way you can compare your own play with the expert's. You will find that the game will progress rapidly. Compare your bidding and play with that of your hands—the comparison may be illuminating.

[illegible]

928.—[PART II.]

[illegible]

A dark, vertical, textured surface, possibly a book cover or a close-up of a material with fine, parallel lines. The texture is highly detailed, showing many fine, closely spaced vertical ridges or grooves. The lighting is uneven, with a lighter, more textured area on the left side and a darker, smoother area on the right. The overall appearance is that of a worn, possibly leather or cloth-bound object.
